

HUSSMANN®

Island

Always Working
to Protect The
Environment 

Features & Benefits

New ICE Range of Display cases are giving you flexibility, as well as performance. All ergonomically designed for optimum internal space management with 12% increased load capacity and up to 20% energy saving.

Superior Merchandizing

- Merchandizing space has been improved with choice of 3 display depths (600-850-1200MM) with further optimization of floor space
- Increased 12% internal volume

High Energy Efficiency & Saving for Green(20% cut in energy consumption)

- New air louver discharge design decreased turbulence and eliminated the pressure drop associated with honeycomb
- Optimized glass design with no anti-condensation heater
- Improved air flow distribution & temperature uniformity

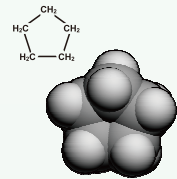

Continuous innovation on High Energy Efficiency & Saving Solution

- High efficient fan motor with outstanding performance could further reduce the energy consumption than ever
- Optional display sliding doors offering up to 45% even greater energy saving

Cyclopentane Foam with world leading environmental protection technology

All the insulating foam used in our manufacturing plants utilizes Cyclopentane as the blowing agent, an innocuous substance for the environment (ODP=0).

Options & Accessories

Energy Efficiency & Saving

- Sliding Lids with LED light options for even greater energy saving(TBL)
- High Efficiency T5 Lighting for superstructure as option

End Panel

- Solid end panels
- Glass end panels

Interior

- Perspex dividers
- Grill separator
- Adjustable grid
- Night blinds
- Night cover

Refrigerant Available

- R22
- R404A
- CO2

Others

- 1 Level Superstructure
- 2 Level Superstructure with lighting
- Hot gas defrost
- Thermometer and thermostat
- Dual temperature available for multi-application
