IR Ingersoll Rand

Features & Benefits

Glass Door Freezer—Reach-in

Asia version Reach-in Freezer is specially designed for Asian retail market to fit Asia store size, condition and local shoppers' physical feature with Hussmann's industry leading Innovator Doors, providing greater energy efficiency, better lighting and simplified maintenance.

25% Reach-in Energy Saving

- Hussmann Reach-in with Innovator Doors are significantly more energy efficient than previous models. This reduction is achieved with new, non-conductive materials and a reduction in anti-sweat heat.
- The case frame is constructed of a strong non-conductive material with more than ever of superior insulation and advanced construction compared to traditional aluminum used on tradition doors and superior insulation.
- Hussmann Innovator Doors with "Always Clear" technology brings the most significant advance in Reach-in merchandizing and up to 25% energy saving.

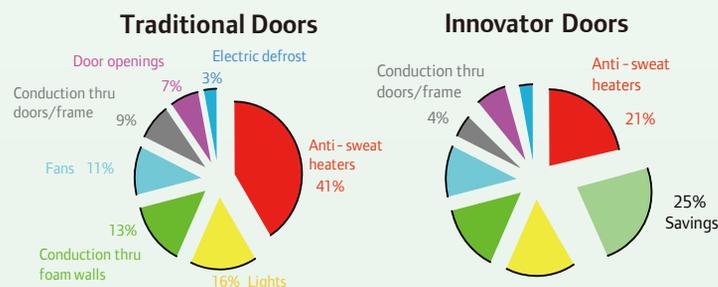

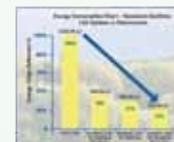

Always* Clear

- ✓ No Fog.
- ✓ No heat.
- ✓ No Contest!

Hussmann EcoShine LEDs Leading the Way in Brightness and Energy Savings for option

Hussmann EcoShine LEDs are optimized for each door application to create even lighting across each shelf with the right brightness & color for each department.

- Lower Energy Cost
Hussmann EcoShine LEDs are optimized for each door application to create even lighting across each shelf with the right brightness & color for each department.
- More uniform Product Illumination
Hussmann EcoShine LED light is spread much more evenly around the entire shelf with up to 1800 Lux at the center of shelf measured at a distance of three inches from the mullions.
- Excellent durability with 5-10 year lamp life

Ingersoll Rand (NYSE:IR) is a world leader in creating and sustaining safe, comfortable and efficient environments in commercial, residential and industrial markets. Our people and our family of brands—including Club Car®, Hussmann®, Ingersoll Rand®, Schlage®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings, transport and protect food and perishables, secure homes and commercial properties, and increase industrial productivity and efficiency. We are a \$13 billion global business committed to sustainable business practices within our company and for our customers.
